CONTENTS

No. 1, August 1989

Annual Report of the Marine Biological Laboratory 1

DEVELOPMENT AND REPRODUCTION

Bosch, Isidro
Contrasting modes of reproduction in two Antarctic asteroids of the genus *Porania*, with a description of unusual feeding and non-feeding larval types ... 77

Fuller, S. Cynthia, Richard A. Lutz, and Ya-Ping Hu
Bilateral asymmetry in the shell morphology and microstructure of early ontogenetic stages of *Anomia simplex* 83

Parks, Annette L., Brent W. Bisgrove, Gregory A. Wray, and Rudolf A. Raff
Direct development in the sea urchin *Phyllacanthus parvispinus* (Cidaroidea): phylogenetic history and functional modification 96

ECOLOGY AND EVOLUTION

Enzien, Michael, Heather I. McKhann, and Lynn Margulis
Ecology and life history of an amoebomastigote, *Paratetramitus jugosus*, from a microbial mat: new evidence for multiple fission 110

Palincsar, Edward E., Warren R. Jones, Joan S. Palincsar, Mary Ann Glogowski, and Joseph L. Mastro
Bacterial aggregates within the epidermis of the sea anemone *Aiptasia pallida* 130

PHYSIOLOGY

Elphick, Maurice R., Roland H. Emson, and Michael C. Thorndyke
FMRFamide-like immunoreactivity in the nervous system of the starfish *Asterias rubens* 141

Osses, Luis R., Susan R. Barry, and George J. Augustine
Protein kinase C activators enhance transmission at the squid giant synapse 146

Widdows, J., R. I. E. Newell, and R. Mann
Effects of hypoxia and anoxia on survival, energy metabolism, and feeding of oyster larvae (*Crassostrea virginica*, Gmelin) 154

No. 2, October 1989

CONSISTENCY AND VARIABILITY IN PEPTIDE FAMILIES

Greenberg, Michael J., and Michael C. Thorndyke
Consistency and Variability in peptide families: introduction 167

Steiner, D. F., S. J. Chan, S. P. Smeekens, G. I. Bell, S. Emdin, and S. Falkmer
Evolution of peptide hormones of the islets of Langerhans and of mechanisms of proteolytic processing 172

Ebberink, R. H. M., A. B. Smit, and J. van Minnen
The insulin family: evolution of structure and function in vertebrates and invertebrates 176

Thorndyke, Michael C., Jennifer H. Riddell, David T. Thwaites, and Rodney Dimaline
Vasoactive intestinal polypeptide and its relatives: biochemistry, distribution, and functions 183

Taylor, Ian L.
Peptide YY: the ileo-colonic, gastric, and pancreatic inhibitor 187

Vigna, Steven R.
Tachykinins and the bombesin-related peptides: receptors and functions 192

Dockray, G. J.
Gastrin, cholecystokinin (CCK), and the leukosulfakinins 195

Price, David A., and Michael J. Greenberg
The hunting of the FaRPs: the distribution of FMRFamide-related peptides 198

Kobayashi, Makoto, and Yojiro Muneoka
Functions, receptors, and mechanisms of the FMRFamide-related peptides 206

Nagle, Gregg T., Sherry D. Painter, and James E. Blankenship
The egg-laying hormone family: precursors, products, and functions 210

Kobayashi, Makoto, and Yojiro Muneoka
Functions, receptors, and mechanisms of the FMRFamide-related peptides 206

Nagle, Gregg T., Sherry D. Painter, and James E. Blankenship
The egg-laying hormone family: precursors, products, and functions 210

CONTENTS

Goldsworthy, Graham, and William Mordue
Adipokinetic hormones: functions and structures 218
Rao, K. Ranga, and John P. Riehm
The pigment dispersing hormone family: chemistry, structure-activity relations, and distribution .. 225

DEVELOPMENT AND REPRODUCTION

Eckelbarger, Kevin J., Craig M. Young, and J. Lane Cameron
Modified sperm ultrastructure in four species of soft-bodied echinoids (Echinodermata: Echinothuriidae) from the bathyal zone of the deep sea 230
Jaeckle, William B., and Donal T. Manahan
Growth and energy imbalance during the development of a lecithotrophic molluscan larva *(Haliotis rufescens)* 237
Jeyalectumie, C., and T. Subramoniam
Cryopreservation of spermatophores and seminal plasma of the edible crab *Scylla serrata* 247
Jones, Meredith L., and Stephen L. Gardiner
On the early development of the vestimentiferan tube worm *Ridgeia* sp. and observations on the nervous system and trophosome of *Ridgeia* sp. and *Riftia pachyptila* 254
Keough, Michael J.
Variation in growth rate and reproduction of the bryozoan *Bugula neritina* 277

ECOLOGY AND EVOLUTION

Garthwaite, Ronald L., Carl J. Berg Jr., and June Harrigan
Population genetics of the common squid *Loligo pealei* LeSueur, 1821, from Cape Cod to Cape Hatteras 287
Maki, J. S., D. Rittschof, A. R. Schmidt, A. G. Snyder, and R. Mitchell
Factors controlling attachment of bryozoan larvae: a comparison of bacterial films and unfilmed surfaces 295

PHYSIOLOGY

Stickle, William B., Martin A. Kapper, Li-Lian Liu, Erich Gnaiger, and Shiao Y. Wang
Metabolic adaptations of several species of crustaceans and molluscs to hypoxia: tolerance and microcalorimetric studies 303

ABSTRACTS

Abstracts of papers presented at the General Scientific Meetings of the Marine Biological Laboratory 313

NO. 3, DECEMBER 1989

BEHAVIOR

Shuster, Stephen M.
Female sexual receptivity associated with molting and differences in copulatory behavior among the three male morphs in *Paracerceis sculpta* (Crustacea: Isopoda) 331

DEVELOPMENT AND REPRODUCTION

Boyer, Barbara Conta
The role of the first quartet micromeres in the development of the polyclad *Hoploplana inquilina* 338
Bradfield, James Y., Robert L. Berlin, Susan M. Rankin, and Larry L. Keeley
Cloned cDNA and antibody for an ovarian cortical granule polypeptide of the shrimp *Penaeus vannamei* 344
Pennington, J. Timothy, and Michael G. Hadfield
Larvae of a nudibranch mollusc (*Phestilla sibogae*) metamorphose when exposed to common organic solvents 350

ECOLOGY AND EVOLUTION

Mitton, Jeffry B., Carl J. Berg Jr., and Katherine S. Orr
Population structure, larval dispersal, and gene flow in the queen conch, *Strombus gigas*, of the Caribbean 356

PHYSIOLOGY

Drewes, C. D., and C. R. Fourtner
Hindsight and rapid escape in a freshwater oligochaete 363
Fisher, Charles R., James J. Childress, and Elizabeth Minnich
Autotrophic carbon fixation by the chemoautotrophic symbionts of *Riftia pachyptila* 372
Freadman, M. A., and W. H. Watson III
Gills as possible accessory circulatory pumps in *Limulus polyphemus* 386
Safranek, Louis, and Carroll M. Williams
Inactivation of the corpora allata in the final instar of the tobacco hornworm, *Manduca sexta*, requires integrity of certain neural pathways from the brain 396
Index to Volume 177 401
